Art Unit: 1645

DETAILED ACTION

1. Applicants' Response to Office Action, received 15 January 2009, is acknowledged. Claims 1, 9, 12, 17 and 18 have been amended. New claims 29-40 have been added.

2. Claims 1-4, 6-12, 14, 15 and 17-40 are pending and under consideration.

Rejections Withdrawn

- 3. The rejection of claim 12 under 35 U.S.C. 112, second paragraph, as being indefinite for identity of cells, is withdrawn in light of the amendment of the claim.
- 4. The rejection of claims 17-18 under 35 U.S.C. 112, second paragraph, as being indefinite for "foreign", is withdrawn in light of the amendment of the claims.
- 5. The rejection of claims 1-4, 6-8, and 19 under 35 U.S.C. 102(b) as being anticipated by Curtiss et al (U.S. Pat. No. 6,383,496) is withdrawn in light of the amendment of the claims.
- 6. The rejection of claims 1-4, 6-8, and 19 under 35 U.S.C. 102(b) as being anticipated by Curtiss et al (U.S. Pat. No. 6,024,961) is withdrawn in light of the amendment of the claims.

Rejections Maintained

7. The rejection of claims 9-12, 14, 15, and 17-18 under 35 U.S.C. 112, first paragraph, scope of enablement for methods of treatment of disorders, is maintained for reasons of record.

Applicants argue that bacteria delivered into the tumor system have active enzyme and that the bacteria are enriched in the tumor tissue. The product of the enzyme conversion of the prodrug is known to be toxic to tumor cells and the combined effect of the enrichment in the tumor tissue and successful conversion is directly correlates to the efficacy.

The examiner has considered applicants' arguments, but does not find them persuasive.

While the data supplied by applicants indicate that the transgenic bacteria are present in tumor tissue and that tumor lysates have the ability to form relative amounts of MeP from the

Application/Control Number: 10/559,663 Page 3

Art Unit: 1645

substrate MePdR, the data show no actual tumor regression following treatment with the *L. Monocytogtenes* delta aroA to which the claims are directed.

8. The rejection of claims 20-28 under 35 U.S.C. 112, second paragraph, as being indefinite for dependence from rejected claims, is

Claim Rejections - 35 USC § 112

- 9. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 10. Claims 1-4, 6-12, 14, 15 and 17-40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Newly amended claim 1 is now drawn to an isolated mammalian cell loaded with a recombinant bacteria and "the isolated mammalian cell is capable of prophylaxis or therapy of neoplastic diseases in a subject".

Because the qualifier does not recite that the "loaded" mammalian cell is capable of prophylaxis or therapy of neoplastic diseases in a subject, it is uncertain if the mammalian cell has the capability or if only the "loaded" cell has the claimed capability.

Claims 2-4, 6-12, 14, 15 and 17-40 depend from claim 1, but do not clarify the issue.

Conclusion

- 11. No claims are allowed.
- 12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Rodney P. Swartz, Ph.D., Art Unit 1645, whose telephone number is (571) 272-0865. The examiner can normally be reached on Monday through Wednesday from 9:00 AM to 7:30 PM EST. Thursday is the examiner's work at home day.

If attempts to reach the Examiner by telephone are unsuccessful, please contact the Examiner's Supervisor, Robert B. Mondesi (571)272-0956.

The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
